LABORATORY
OF OKLAHOMA.

Upfront Payment Program

Pay up front for select lab tests

Diagnostic Laboratory of Oklahoma (DLO) offers patients the ability to pay for select lab tests up front at a discounted rate for provider-ordered testing. Payment must be made at the time of service in a DLO Patient Service Center (PSC).

If you have patients who are uninsured or have a high deductible, this program may be a good option to save money on their lab testing.

To find the nearest DLO location, visit dlolab.com/locations.

Pricing listed is for provider-ordered lab testing paid at the time of service and is only available at DLO Patient Service Centers and is not available for lab draws by DLO in-office phlebotomists or specimen collections at a provider's office.

** Depending on the results, these tests may require an additional test that will be billed to the patient as an additional charge.*
